

60.754M Clean room mask
60.754L "Duckbill" style

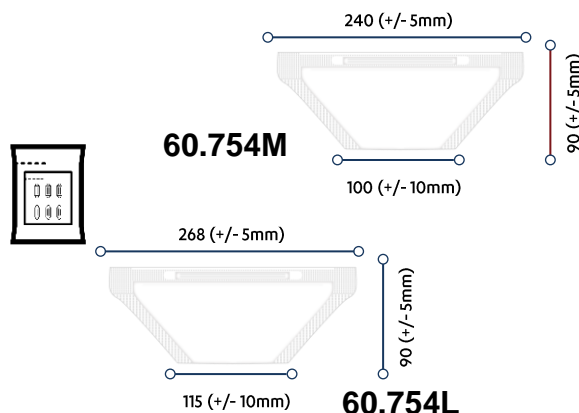

FEATURES & BENEFITS

- Low particle release level - Helmke drum tested, suitable for use in **ISO 3 Class C or higher cleanrooms**.
- Excellent filtration efficiency of particles, bacteria, and viruses (> 99%).
- The mask adapts to users and protocols with its two available sizes.
- Thanks to its large breathing chamber, the mask remains highly breathable.
- Softex technology minimizes the risk of particulate contamination while reducing the risk of skin irritation for the wearer.
- Made from **25% recycled materials**.
- The adjustable and malleable nose clip prevents fogging on glasses.
- The ISO AIR range is manufactured in a Controlled Atmosphere Zone.

PRODUCT DETAILS

Product name :	ISO AIR Clean Room mask
Product type :	Single use, non sterile
Shape :	Duckbill
Fasteners :	Headloops
Packaging :	6 bags of 50 masks - Double packed
Unit weight :	M - 3,3 g (+/-10%) L - 3,5 g (+/-10%)
Manufacturing country :	France

Made from **25% recycled materials**, this ISO AIR mask reduces the consumption of polypropylene from fossil resources. Thanks to the Mass Balance approach and its value chain, we have designed the ISO AIR range from recycled polypropylene which, thanks to a chemical recycling process using heat, is returned to the state of monomers. This enables to keep the **same characteristics** as virgin polypropylene. It is thanks to this technique that our Mass Balance masks maintain **excellent performances**, similar to the performances of a mask made from virgin polypropylene.. For more information about Mass Balance, please contact us.
